# Velcro® Brand Fasteners 101: The Basics

## Hook

The rough side of the **VELCRO®** brand fasteners, available in widths from 1/4" – 6".

## Loop

The soft fuzzy side of the **VELCRO®** brand fasteners, available in widths from 1/4" – 6".

## Adhesive

The glue on the back of the hook and loop material. Hook and loop material can be purchased with or without adhesive. Many different adhesives are available depending upon your requirements. Be sure to discuss your application with us to ensure the best possible adhesive is supplied for your project. Hook and loop material with adhesive is also referred to as pressure sensitive. The glue is exposed by peeling off the plastic liner.

## Sew On

Hook and loop material with no adhesive

## VELCRO® Brand ONE – WRAP STRAPS®

A unique self gripping die cut strap with loop on the front laminated to hook on the back, this allows it to function much like a nylon zip tie, except it is reusable and fully adjustable since it continuously wraps around itself.

## VELCOIN®

Die cut round pieces of hook and loop material with adhesive on the back, also commonly referred to as dots, coins and buttons, available in diameters from 1/4" – to 1 7/8".

## Rolls of hook and loop material

Most customers purchase both the hook and loop **VELCRO®** brand fasteners, however, they can be purchased separately.

## Put-Ups

Most lineal widths of **VELCRO®** brand fasteners come on 25 yard rolls. Quantities of coins vary depending on diameter.

## VELCRO® BRAND ONE WRAP TAPE®

A unique self gripping fastening system with loop on the front laminated to hook on the back; this allows the product to continuously wrap around itself. This product comes in 1/4" through 4" widths. Lengths can be cut or perforated to meet your specific needs.

## Custom Made Straps

Fabrication of straps in various widths to fit your requirements using **VELCRO®** brand material. Commonly, buckles made of metal or plastic are used. Fabrication of nearly every variety can be undertaken to fit your needs. Minimum orders for custom straps are: 100 for non-printed, 250 for printed and 500 for ONE WRAP brand printed straps.

## EZ-Peel Tab

Tip or end of a custom fabricated strap that offers a pull tab for disengaging hook from loop.

## Kiss Cut

Adhesive product that is cut to length but remains on its release liner.

## Perforated Material

Non-adhesive material that is almost cut through but remains attached to adjoining pieces, like a roll of paper towels.

## Military/Government

Textol supplies **VELCRO®** brand products to all branches of the military throughout the world, as well as schools and government entities nationwide. Textol stocks hook and loop products in Foliage Green and Olive Drab conforming to the latest military color guidelines. Textol accepts all major credit cards including those issued to military and government personnel.

## School and Educational Sales

Textol supplies **VELCRO®** brand products to schools both public and private at all levels from individual teacher's classrooms to departments and beyond, as well as colleges and universities. Textol accepts Purchase Orders from all educational institutions as well as all major credit cards.

## Printing Services

Printing services are available on custom straps and on certain sizes of ONE WRAP brand fasteners straps. Be sure to ask us for details on this service.

## Cutting Services

All of the **VELCRO®** brand material we stock can be cut to your requirements. Cutting services include straight cutting, die cutting, kiss cutting, perforating, and cut and mate which involves cutting the hook and loop together and ending up with "mated" sets.

## Packaging Services

Custom Packaging, fulfillment, blister packing and other packaging services are available. Be sure to ask us for details or let us know your requirements.

# Velcro® Brand Pressure Sensitive Rolls of Hook & Loop
